Professional Summary

Results-driven Frontend Developer with expertise in JavaScript, React, and Node.js. Skilled in building scalable web applications, optimizing performance, and leading high-performing teams. Proficient in modern frontend frameworks, cloud technologies, and Agile development methodologies. Strong background in CMS platforms, API development, and AWS services.

Skills

- **Frontend Design & Development:** HTML, CSS, JavaScript, React, Redux, Liquid, Next.js, Graphql, SASS, LESS
- **E-commerce & CMS Customization:** Shopify Theme & App Development, BigCommerce, Wix, WordPress, Shift4Shop, Custom CMS
- **Backend & API Development:** Express.js, Node.js, PHP, MySQL, MongoDB, Shopify App Development
- **Optimization & Performance:** Website Speed Optimization, REST APIs, Command Line Interfaces, Shopify/BigCommerce CLI
- **Project & Collaboration Tools:** Git, Postman, Jira, Figma, Photoshop, Atlas, AWS

Experience

Frontend Team Lead | MakkPress Technologies | 2023 – Present

- Promoted to Frontend Team Lead, managing a team of 7 developers, overseeing project execution, and ensuring timely delivery.
- Led task delegation, code reviews, and performance monitoring, ensuring best coding practices and project efficiency.
- Played a key role in React and Node.js development, Shopify app development, and API integrations.
- Conducted client meetings to align project goals, provide technical solutions, and drive business growth.
- Worked extensively on website speed optimization, migration tools, REST APIs, and command-line interfaces for CMS platforms.

Jr. Front End Developer | MakkPress Technologies | 2022– 2023

- Started as a Jr. Frontend Developer, focusing on building responsive and dynamic web interfaces using HTML, CSS, and JavaScript.
- Gained hands-on experience working with Shopify, BigCommerce, and Wix, customizing themes and enhancing UI/UX.
- Collaborated with senior developers on CMS integrations, website performance optimization, and API implementations.
- Developed reusable components and optimized front-end code for improved efficiency and scalability.

Experience

Web Designer | Mindreamers Pvt. Ltd. | July 2021 – December 2021
• Worked on frontend development using HTML, CSS, JavaScript, and React, building responsive and dynamic web interfaces.
• Gained hands-on experience with Redux and Context API for state management, improving application performance and scalability.
• Collaborated with designers and backend developers to enhance UI/UX and integrate APIs into React-based applications.
• Optimized web applications for better performance, accessibility, and cross-browser compatibility.

Web Development Intenship | AirCam Media Pvt. Ltd | Feb 2021 – April 2021
• Worked on live projects, gaining hands-on experience with HTML, CSS, JavaScript, jQuery, and AJAX for dynamic web development.
• Assisted in backend development using PHP and MySQL, contributing to database-driven web applications.
• Collaborated with senior developers on UI/UX improvements, ensuring responsive and visually appealing designs.
• Used Photoshop for basic design modifications and optimizing website graphics for better performance.

Education

Bachelor of Engineering | RGPV University, Bhopal | 2020

Intermediate | Vivekanand Inter College, Almora | 2016

Highschool | Vivekanand Inter College, Almora | 2014

Projects

E-commerce Store Development
• Built and customized multiple e-commerce stores using Shopify, BigCommerce, Wix, and custom CMS platforms, ensuring responsive design, optimized performance, and seamless user experience.
• Developed custom themes and performed full DOM manipulation to create dynamic, interactive, and user-friendly interfaces.
• Integrated third-party apps, payment gateways, and automation tools to enhance store functionality and business operations.

Shopify, BigCommerce & Wix App Integrations
• Integrated and customized third-party applications for inventory management, payment processing, shipping automation, and customer engagement.
• Developed custom Shopify and BigCommerce apps to extend store functionalities and improve workflow automation.
• Worked with APIs and webhooks to enable seamless data synchronization between platforms and external services.

Projects

Shopify App & Admin Panel Development
- Developed custom Shopify apps for store automation, product management, and analytics.
- Built admin panels for managing store data, integrating APIs, and streamlining backend operations.
- Implemented real-time data processing and API integrations for better data management.

React & Redux Web Applications
- Developed custom web applications using React, Redux, and Next.js, focusing on dynamic UI, state management, and API integrations.
- Designed and implemented interactive UI elements using full DOM manipulation, animations, and event handling.
- Optimized web performance by reducing re-renders and improving state management with Redux & Context API.

Custom API & Backend Development
- Created REST APIs and custom APIs using Node.js, Express.js, and PHP for fetching products, managing user data, and integrating external services.
- Developed secure and scalable CRUD applications using PHP, MySQL, MongoDB, and Node.js.
- Built authentication systems, admin dashboards, and real-time data processing for web applications.
- Optimized API performance and response times for scalability and efficiency.

Additional Information

Languages spoken : English, Hindi, Kumauni

Hobbies : Singing, Guitar, Cricket, Travelling
